

The Concordium

The Concordium was a group of 14 *Holy Knights*, directly serving the King. 7 of these Holy Knights betrayed the others, framing them for *high treason against the kingdom*, and sentencing them for a millenium. With this sentencing, the betrayed Holy Knights, now called **The Seven Deadly Sins**, were further punished with **The Capital Curses**, from *The Blood of The Dead Gods*. The other half of **The Concordium** called themselves **The Seven Heavenly Virtues**, and continued selling their false tale of the Sins' betrayal.
